General Description

Avaq Semiconductor offers the highly versatile and reliable TMC2225-SA-T driver, produced by TRINAMIC Motion Control GmbH & Co. KG. With its multifunctional and high-performance capabilities, this component is an excellent choice for a wide range of electronic projects.

To ensure that you have all the necessary information to make the most of this component, Avaq provides a free datasheet PDF, as well as circuit diagrams, pin layouts, pin details, pin voltage ratings, and equivalent components for the TMC2225-SA-T.

Avaq also offers free samples. Simply fill out and submit the sample request form to receive your free samples for testing. If you have any questions, please feel free to contact us at ar
